Areas of Concern	Yes/No/NA	Exit Summary

Are there resident issues or topics that need follow-up or review at a later time or during the next visit?	Discuss items from "Areas of Concern" Section as well as any changes observed during the visit During previous visits to this community, some residents and family members voiced their perception that staff did not adequately support resident participation in group activities. We observed most residents sitting in the TV room, with interaction among residents or staff. At this visit, however, staff were observed encouraging residents to join an activity. Two common areas had been refurnished to support group activities, one for crafts, the other, to resemble a movie theatre.
